MEMORANDUM FOR THE RECORD

SUBJECT: HPSCI Comments on NAPA Study

1. Mike O'Neil of the House Intelligence Committee staff called me today to comment on the letter that he had received recently signed by the DCI forwarding the final NAPA study. He mentioned that they had noted the DCI's favorable comments on the suggestions made in the study.

2. O'Neil wished to underscore and record the Committee's position that they read the Director's letter to mean that these were good ideas that should be followed up and discussed with the two Oversight Committees before they were implemented. He noted that that they do not see the Director's letter as a statement that any specific proposals will be implemented prior to such consultation.

3. I assured O'Neil that we were aware that both Oversight Committees were going to have hearings on personnel and benefits issues this spring and that I thought that his general understanding of the Director's intent was correct. Please advise me if this is not correct.
